

### Task sheet 3 - Our language portraits

#### Task

The picture above shows an example of the languages students in a class speak. The heads are the flags, and the numbers represent the number of students that speak that language.

Now it is your turn: Using the class results from the language survey, illustrate the results in pictures.

Show the reader the results without using words.

You could show things that relate to the country of the language, for example the country flag, or food etc. from that country
