Exercise 2. Definitions

All the words in Chart 1 above are NOUNS (substantiv). Nouns are the most essential word group in a sentence and also in a verse. You are now going to find the explanation/definition of the nouns used in the recording *Electrical Wiring in a New Home*.

How to use the dictionary: Use your online dictionary <u>http://www.merriam-webster.com/</u>and paste the individual nouns below in the online search bar.

Note:

- You cannot paste in combined words, e.g. dimmer switch, but dimmer and switch separately.
- The nouns may have several meanings. Find the meaning that applies for our field of interest (electricity)

If you paste the word **dimmer** in the search bar, this will appear: "a device that allows you to control the brightness of a light" (look at example below). Find the correct explanation or definition of the word. Paste it into column 2, translate it in column 3 and identify the nouns in the explanation/definition in column 4.

Optional work: Use the online dictionary and provide relevant synonyms of the words.
