

ICAPAI 2024 - Human-Centric AI for the Digital Society

The 4th International Conference on Applied Artificial Intelligence

April 16th, 2024 – IFE, Halden, Norway

<http://www.icapai.org>

The theme of the 4th International Conference on Applied Artificial Intelligence (**ICAPAI 2024**) will be “**Human-Centric AI for the Digital Society**”. ICAPAI will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Artificial Intelligence that enables a more Digitalized Society. The conference aims to provide a platform to researchers and practitioners from both academia and industry to meet and share information about cutting-edge developments in the field. ICAPAI 2024 welcomes papers in the following thematic areas:

- AI for digitalized health and welfare
- AI for digitalized education
- AI for digitalized work life and work organizations
- Basic research and technological foundations of AI for the digital society
- AI for energy technology
- Ethical and societal implications of AI in the digital society

Authors are welcome to contribute to the conference by submitting articles that illustrate on-going research results, projects, surveying works and industrial experiences that describe significant advances in all of the related areas. All papers must be original and not simultaneously submitted to another journal or conference. Papers submitted to ICAPAI 2024 will undergo a double-blind review process. All papers that are accepted and presented in ICAPAI 2024 will be published in the ICAPAI 2024 Conference Proceedings and included in IEEE Xplore®.
